More Information <https://linktr.ee/deanfahreza> | <https://github.com/dean-fahreza>

A fresh-graduated Informatics Student who is skilled in back-end, Linux Bash formatting, Linux kernel, and Git Version Control System. I have built and maintained many back-end and Linux formatting projects. I enjoy solving problems, particularly in Python, Java, JavaScript, and many more. A life-long learner, always eager to learn new technologies.
